Manufacturer:

Description

- Designed specifically for use with c-arm style x-ray machines.
- Open frame construction allows the c-arm clear travel nearly the entire length of the carrier.
- The carrier accommodates our x-ray type autopsy tray, allowing the case to remain on one tray for both the x-ray and autopsy procedures.
- Fabricated from 1.5in/3cm square, .12 tubing thickness, 304 stainless steel tubing.
