Description

JP.30

- Production Capacity:30 kg/day
- Bin capacity:15 kg
- Evaporator with aluminium panel and copper pipe.
- Sliding door.
- Stainless steel body.

JP.50

- Production Capacity:50 kg/day
- Bin capacity:20 kg
- Evaporator with aluminium panel and copper pipe.
- Sliding door.
- Stainless steel body.

JP.90

- Production Capacity: 90 kg/day
- Bin capacity:35 kg
- Evaporator with aluminium panel and copper pipe.
- Sliding door.
- Stainless steel body.

JP.125

- Production Capacity: 125 kg/day
- Bin capacity:60 kg
- Evaporator with aluminium panel and copper pipe.

- Sliding door.
- Stainless steel body.

JP.175

- Production Capacity: 175 kg/day
- Bin capacity:75 kg
- Evaporator with aluminium panel and copper pipe.
- Sliding door.
- Stainless steel body.

JP.250

- Production Capacity: 250 kg/day
- Bin capacity:200 kg
- Evaporator with aluminium panel and copper pipe.
- Stainless steel body.

JP.450

- Production Capacity: 450 kg/day
- Bin capacity:200 kg
- Evaporator with aluminium panel and copper pipe.
- Stainless steel body.
