Description

- Table is designed as an integral part of the embalming process and for cadaver handling.
- Equipped with rollers that allow for easy loading and unloading of cadavers.
- 3in/5cm permanent slope designed to assist in drainage.
- Fabricated from square, 304 stainless steel tubing 1.5in/3cm .12 thickness.
- Stainless steel has a grained finish and all welds match adjoining surfaces.
- Easy quick connections for electrical and water rinse assembly.
