Description

Keeping your guest's valuables safe has never been easier!

Minibar Systems brings you SmartBox—the stylish and easy to use digital code safe at great value! SmartBox comes in two models: **Laptop** and **Top Open**. It is available in a variety of sizes to accommodate your guests' needs including a large laptop storage size. SmartBox features include audit software and emergency override functions. Its simple operation makes it the most user-friendly digital code safe on the market.

For further information please visit the respective country site.

Standard Features

- Motorized double bolt
- Large LED display and keyboard
- Battery auto-check and low battery warning
- Battery backup
- Master code override
- Five additional codes for supervisors

- Laptop safes with mechanical lock and emergency key (also available without mechanical lock)

Options

- Audit handheld including software allows override procedure, download and reporting of the last 400 operations and 50 failed attempts.
